

INVESTMENT OBJECTIVE

This portfolio aims to provide capital growth from a core buy and hold investment strategy in 10 globally recognised stocks we consider to be well positioned as defensive during market down turns and well positioned for exemplar growth during rising markets.

Whilst working as a buy and hold strategy the portfolio has full active management and the holdings and respective weightings are continually monitored, reviewed and can be amended as and when any fundamental factors change.

PH Equity is rebalanced quarterly unless in the view of the managers it is more beneficial to rebalance in a shorter or longer timeframe.

This portfolio is provided and managed by P1 Investment Management and Cobens Direct, a trading style of Astute Financial Management (UK) Limited, on behalf of Quai Investment Services Limited
